and Preferred Care-Blue with a prescription drug benefit.

Blue Cross and Blue Shield of Kansas City **2008 Prescription Drug List**

Introduction

The Prescription Drug List has been developed and is maintained by the Medical and Pharmacy Management Committee of Blue Cross and Blue Shield of Kansas City. The committee is composed of practicing physicians and pharmacists within the Kansas City area. Quarterly meetings are held to evaluate new drug therapies and review drug utilization issues.

Medications are evaluated on the basis of safety, effectiveness, adverse events, proven advantages over existing agents and cost. All medications are assigned to one of three copay levels: first tier, second tier and third tier. Any new branded medication will automatically be assigned to the highest copay tier until reviewed by the committee.

While extensive, this is not an exhaustive list of all available medications and this list is subject to change. The most current formulary status for individual medications is available on our Web site at www.bcbskc.com. If you require additional information or clarification, contact the Clinical Pharmacy Unit of Blue Cross and Blue Shield of Kansas City.

Please be aware that as new products are released and post-marketing information on existing therapies becomes available, changes in the Prescription Drug List status (second tier to third tier) may occur. The committee may also implement prior authorization or other utilization management processes as deemed necessary. Physician and pharmacy providers will be notified of any such changes via newsletter and direct mailings.

Drug Utilization Management/Prior Authorization

Due to concerns with appropriate use, certain medications or classes of medications may require prior authorization. Your physician will need to submit a written request for coverage consideration. Blue Cross and Blue Shield of Kansas City has provided prior authorization forms to our physicians for this purpose.

FREQUENTLY ASKED QUESTIONS

Who determines the tier that a medication is placed?

The Prescription Drug List is reviewed and updated by the Medical and Pharmacy Management Committee of Blue Cross and Blue Shield of Kansas City. The committee is composed of practicing physicians and pharmacists within the Kansas City area. Quarterly meetings are held to evaluate new drug therapies and review drug utilization issues. Medications are evaluated on the basis of safety, effectiveness, adverse events, proven advantages over existing agents and cost.

What is the difference between brand-name drugs and generic drugs?

Brand-name drugs are those medications that have been developed and marketed by the original manufacturer and are under patent protection by the government for a period of time. A generic drug contains the same active ingredient as the original brand-name drug. Generic drugs become available once the brand-name manufacturer's patent has expired. They cost less and are usually sold under the common or "generic" name. Generic drugs must be approved by the Food and Drug Administration (FDA) before they are released on the market.

What is the difference between a generic equivalent and a generic alternative?

A generic equivalent is a medication that contains the same active ingredient as the original brand-name drug (ranitidine is the generic equivalent of Zantac®). A generic alternative is a generically available medication that works in the same manner as another drug. An example of this would be ranitidine. It is the generic equivalent of Zantac, but it works in the same way as Axid and Pepcid to relieve stomach acid. Therefore, it is a lower cost alternative in the same class of medicine.

What if I have questions about my prescription drug coverage?

Questions may be directed to the Pharmacy Customer Service Unit at 816-395-2176 or 1-800-228-1436, Monday through Friday, 8:00 a.m. - 5:00 p.m., Central Time. Information regarding your pharmacy benefit can also be obtained through our Web site at www.bcbskc.com and clicking on the "Member" link. If it is your first time accessing the internet site, then you will need to click on "Member PIN Request" from the main page and follow the instructions.

Do I need to show my Blue Cross and Blue Shield of Kansas City member I.D. card at the pharmacy?

We recommend that you present your insurance card to your pharmacist whenever you have a prescription filled. The claim is transmitted electronically at the time you fill your prescription, and it is critical that your most current insurance information is used to avoid any delays or claim denials.

What do I do if I need to refill my prescription early (i.e., vacation, increased the dose)?

Situations do arise in which an early refill is necessary. In those circumstances, please have your pharmacist contact the Pharmacy Customer Service Unit for assistance at 816-395-2176 or 1-800-228-1436, Monday through Friday, 8:00 a.m. - 5:00 p.m., Central Time.

What if I am out of town and need to have a prescription filled?

Blue Cross and Blue Shield of Kansas City contracts with most major pharmacy chains and has a network of more than 44,000 pharmacies nationwide. If the pharmacy you are using has difficulty processing your prescription claim, please have them contact the Pharmacy Customer Service Unit for assistance at 816-395-2176 or 1-800-228-1436.

Are all prescription drugs covered by Blue Cross and Blue Shield Kansas City?

A majority of prescription drugs are covered by Blue Cross and Blue Shield Kansas City. However, some drug classes require a benefit rider by your particular plan's contract in order to be covered. Examples of such drug classes are fertility, birth control, impotency, weight loss, and smoking cessation prescription drugs.

Why do some drugs require authorization before they are covered?

Blue Cross and Blue Shield of Kansas City uses a process called prior authorization for some drugs and classes of drugs. Prior authorization is required in situations where there are safety concerns, significant risk of drug-drug interactions and to ensure that the manufacturer's recommended dosing guidelines are followed. The Medical and Pharmacy Management Committee determines the necessity and extent of prior authorization.

What is a maintenance drug?

A maintenance drug is a medication that is FDA-approved to treat a chronic condition for a period in excess of one year and has been proven to be safe for continuous, long-term use. Blue Cross and Blue Shield of Kansas City does not determine maintenance/non-maintenance status of medications. Assignment of maintenance status originates from First DataBank. First DataBank is a national drug information database, and their criteria are derived from the FDA-approved uses of the medication.

Why must some drugs be purchased through a Specialty Pharmacy?

Specialty drugs are those that require special ordering, handling, clinical monitoring and/or customer service. These drugs are best purchased through a Specialty Pharmacy. Blue Cross and Blue Shield of Kansas City has a network of Specialty Pharmacies available to provide specialized care for patients with complex chronic health conditions to obtain their medications and manage their health conditions.

DRUG UTILIZATION MANAGEMENT

Antidepressant Medications

- Members will be required to try one generic antidepressant before coverage of a brand name antidepressant medication. For example, use sertraline, citalopram, fluoxetine, fluvoxamine, or bupropion before Zoloft, Paxil/CR, Celexa, Lexapro, Prozac, Effexor, or Wellbutrin/SR/XL.
- Prior authorization will be required for a brand name drug if the member has not tried and failed a generic product.

Antifungals

- Diflucan, Lamisil, and Sporanox require prior authorization. Diflucan 150 mg, 3 tablets per month, will process without a prior authorization. Diflucan 50mg, 100mg and 200mg all have a limit of 14 tablets per three months.
- If the antifungal is prescribed for the treatment of onychomycosis, fungal infection of the fingernails and toenails, it is covered only if at least one of the following medical conditions is present:
 - Diabetes mellitus
 - Compromised Immune System
 - Peripheral vascular disease
 - Impaired ambulation
 - Severe pain and debilitation
 - Soft tissue involvement around nail bed

Authorization is granted for one course of treatment (8 weeks for fingernails, 12 weeks for toenails) per year. Continuation of therapy would require follow-up review.

Antihypertensive Medications-Angiotensin Converting Enzyme Inhibitor (ACE) /Angiotensin-II Receptor Blocker (ARB), Calcium Channel Blockers (CCB), and Direct Renin Inhibitors

- Members will be required to try one generic ACE Inhibitors before coverage of a brand name ACE Inhibitor.
- Members will be required to try one generic ACE Inhibitors before coverage of an ARB.
- Members will be required to try one generic CCB before coverage of a brand name CCB.
- Prior authorization will be required for a brand name drug if the member has not tried and failed a generic product.

Anti-inflammatory Medications (NSAIDs and COX-2s)

- Brand and generic NSAIDs and COX-2 inhibitor medications are subject to maximum daily dosages.
- Members will be required to try two generic NSAIDs before a brand name NSAID or COX-2 will be covered.
- Prior authorization will be required for a brand name drug if the member has not tried and failed a generic product.

Anti-Nauseant Medication (5HT3 Receptor Antagonists)

- Zofran, Kytril, Emend and Anzemet are limited to 10 tablets per 30 days. Prior authorization is required for larger quantities.

Asthma Inhalers

- All short-acting, beta-2 agonist metered-dose inhalers (i.e., albuterol, Alupent, Maxair, Proventil, Tornalate, (Ventolin) are limited to a maximum quantity of 2 inhalers per month.

Cholesterol-Lowering Agents

- The statin class of drugs, which include lovastatin, pravastatin, simvastatin, Crestor, Lipitor, Vytorin, Lescol and Lescol XL are limited to once-daily dosing.
- Zetia is also limited to once daily dosing.
- Prior authorization will be required for a brand name drug if the member has not tried and failed a generic product.

Compounded Medications

- Prior authorization is required for claims priced at \$50 or more.

Contraceptive Medications

- Prior authorization is required for groups without a coverage rider.

Headache/Pain Management

- Imitrex injection is limited to a maximum of 8 doses per month.
- Amerge, Axert, Frova, Imitrex, Maxalt, Maxalt MLT and Zomig tablets are limited to a maximum of 9 tablets per month.
- Zomig Nasal Spray is limited to a quantity of 3 unit dose spray devices per month.
- Migranal is limited to a quantity of 10 tablets per month.
- Stadol (butorphanol) Nasal Spray is limited to a maximum quantity of 8 bottles per month.

Influenza Therapies

- Relenza and Tamiflu are limited to one course of treatment per flu season.

Impotency Medication

- Medications used for the treatment of impotency are covered only by a separate coverage rider and prior authorization is required.
- Coverage is only provided for the treatment of impotency caused by another medical condition, such as diabetes.
- Caverject, Edex, compounded triple-mix injection, MUSE and Viagra are limited to a maximum quantity of 6 metric units per month.
- Prescriptions for Viagra will be denied if there is a claim record of a nitrate-containing medication, because these medications should not be used together.

Narcotic Analgesics

- Some narcotic analgesics are subject to maximum daily dosages. Quantities above manufacturer's recommended daily maximum doses require prior authorization.
- All short acting fentanyl prescriptions will require prior authorization.

Proton Pump Inhibitors (Aciphex, Nexium, Prevacid, Protonix)

- Prior authorization is required for greater than once daily dosing.

Pletal (cilostazol)

- Cilostazol is contraindicated in patients with congestive heart failure (CHF).
- An on-line DUR edit will screen for a claim history of medications related to CHF (i.e., carvedilol, digoxin, etc.). If any such claims are identified, the claim for cilostazol will deny.

Psoriasis: these medications must be purchased through a network Specialty Pharmacy

- *Amevive:* Prior authorization required
- *Raptiva:* Prior authorization required
- *Enbrel:* Prior authorization required
- *Remicade:* Prior authorization required

Rheumatoid Arthritis: these medications must be purchased through a network Specialty Pharmacy

- *Enbrel:* Prior authorization is required
- *Kineret:* Prior authorization is required
- *Humira:* Prior authorization is required
- *Remicade, Orencia, Rituxan:* Prior authorization is required, and it is covered under the medical benefit (infusion).

*Prior authorization also required for Remicade when used for the treatment of Crohn's Disease.

Singulair

- Singulair for seasonal allergic rhinitis requires prior authorization.
- Singulair for asthma will process if a script has been filled within the past 6 months or the member has had other asthma related medications filled.

Smoking Cessation

- Medical treatment of smoking/nicotine addiction is excluded by contract for most plans.
- Some groups may have a smoking cessation rider, and coverage is provided for FDA-approved, prescription smoking deterrents only. ***Bupropion is not covered for smoking cessation.***

Weight Loss

- The medical treatment of obesity is excluded by contract for most plans
- Some groups may have a rider, and coverage is provided for prescription anorexiant.

Zoloft (sertraline) 50mg

- Brand and generic Zoloft 50mg tablets are not covered.
- Zoloft 100mg, ½ tablet is to be used for a Zoloft 50mg dose (with physician's approval). Odd doses such as 25mg, 75mg, etc. can be authorized for the 50mg tablet.

Miscellaneous Information

Self-Injectable Medications

The self-injectable drugs in the following list are covered under the medical benefit rather than the pharmacy benefit:

Self-Injectable Medications That Are Paid Through The Medical Benefit
• Darbepoetin (Aranesp)
• Epoetin Alfa (Epogen or Procrit)
• Growth Hormones
• Pegfilgrastim (Neulasta)
• Filgrastim (Neupogen)

Outpatient Prescription Drug Calendar Year Maximum

Some pharmacy benefit plans have a maximum dollar amount allowed per calendar year. The following chart lists medications that are available through the pharmacy benefit and do not apply to the outpatient prescription drug calendar year maximum.

Medications That Do Not Apply to the Outpatient Prescription Drug Calendar Year Maximum	
• Adalimumab (Humira)*	• Interferon Gamma-1B (Actimmune)
• Anakinra (Kineret)*	• Interferon/Ribavirin (Rebetron)
• Etanercept (Enbrel)*	• Oral Chemotherapeutic Agents
• Dornase Alfa (Pulmozyme)	• Oral Immunosuppressants
• Glatiramer (Copaxone)	• Peginterferon Alfa-2A (Pegasys)
• Interferon Alfa-2B (Intron A)	• Peginterferon Alfa-2B (Peg-Intron)
• Interferon Alfacon-1 (Infergen)	• Ribavirin (Copegus, Rebetol)
• Interferon Beta-1A (Avonex, Rebif)	• Tobramycin 2% Ampules (Tobi)
• Interferon Beta-1B (Betaseron)	• Teripataride (Forteo)
* This drug requires prior authorization before purchase.	

Specialty Pharmacy

A Specialty Pharmacy is one that provides specialized care for patients with complex chronic health conditions such as Rheumatoid Arthritis, Multiple Sclerosis or Psoriasis. These pharmacies do everything from dispense the specialty medication to help patients manage their health condition. The following is a list of other services provided by the Specialty Pharmacies:

- Assigns a Patient Care Coordinator who serves as a personal advocate and point of contact
- Offers access to a dedicated clinical staff of nurses and pharmacists who are knowledgeable about the medications and conditions
- Provides the necessary supplies to administer the medications — at no additional cost
- Offers care management programs to help patients get the most from their medications
- Provides patients with refill reminder calls
- Allows the medications to be delivered to either the physician’s office or patients home
- Works directly with patients to arrange a convenient shipment date
- Ships all medications overnight
- Coordinates with Blue Cross and Blue Shield of Kansas City to take care of billing issues

These services are provided to you at no additional cost. Prescriptions for a specialty medication will need to be filled at a designated Specialty Pharmacy. The following is a list of Blue Cross and Blue Shield of Kansas City network Specialty Pharmacies that you or your physician may contact:

Curascript	Phone: 877-259-2295		MedMark	Phone: 888-884-8714
	Fax: 888-773-7386			Fax: 877-231-8302
Option Med	Phone: 800-720-7522			
	Fax: 888-594-8981			

Most specialty medications are covered under the pharmacy benefit. For a list of those self injectable specialty medications that are covered under the medical benefit, please see the list provided on the previous page. The following is a list of some of the most common health conditions and medications managed by Specialty Pharmacies:

Health Condition	Medications
Cystic Fibrosis	Pulmozyme, Tobi
Hepatitis C	Pegasys/Copegus, Peg-Intron, Intron-A
Multiple Sclerosis	Avonex, Betaseron, Copaxone, Rebif
Oral chemotherapy	Tarceva, Sutent, Gleevec,
Osteoporosis	Forteo
Psoriasis	Raptiva
Pulmonary Arterial Hypertension (PAH)	Tracleer, Ventavis
Rheumatoid Arthritis	Enbrel, Humira, Kineret
